VOL. XXIII, NO. 158 GAINESVILLE, FLORIDA, SATURDAY, AUGUST 11, 1906 TEN CENTS A WEEK

SITUATION IMPROVES IN CZAR'S EMPIRE

Numbers of Guards Return to Summer Camps.

COURT CIRCLES MUCH RELIEVED

Resumption of Work at Moscow Was Complete Thursday But Arrests of Agitators and Chief of Workingmen's Organization Continue.

St. Petersburg, Aug. 10.—In view of an improvement in the situation a number of the guard regiments have already returned to their summer camp at the Tsarkoe-Selo. The emperor has arranged to go there Saturday and spend five days. These imperial visits to the guard camps are gala occasions and are always marked with festivities, theatricals, banquetting and toating among the various regiments. The empress' yacht which has been undergoing repairs for two years, steamed to Peterhoff last night, leading to the belief that the imperial family will soon make their postponed visit to Finish waters.

Court circles are greatly relieved by the prospect of a period of calm which will give the government an opportunity to inaugurate its program.

The Rossia today says it is the intention of the government to fight a counter revolution with the same energy it has been waging war against the enemies of society and expresses the hope that moderate public opinion equally hostile to both extremes, will grow rapidly.

The Novoe Vremya, taking as its text th efailure to employ summary executions as a deterrant to mutinies, complains that for years the government has not known how to employ firmness.

The Bourse Gazette makes the startling charge that much of the revolutionary agitation conducted among the sailors at Cronstadt, was the university girl students, who frequented public houses patronized by the sailors in order to bring them under their influence.

Moscow, Aug., 10.—The resumption of work here was complete Thursday but arrests of agitators and chiefs of workmen's organizations continue. Many of the more active of the workmen have been expelled from the city.

Riga, Russia, Aug. 10.—A police patrol guarding the railroad was fired upon from ambush Wednesday. One man was killed and one wounded.

Bryan Accepts Invitation.

New York, Aug. 10.—Former U. S. Senator James Smith, Jr., announced Wednesday that he had received a letter from William J. Bryan from London, accepting an invitation to speak in Newark, Sept. 1. The intention is to have Mr. Bryan make three outdoor speeches, after which he will go to Jersey City to fill engagements there. Colonel Alexander Troop, treasurer of the committee in charge of the arrangements for the reception to Mr. Bryan has engaged John C. Collins, of New Haven, who at one time worked with the late Dwight L. Moody, the evangelist, to assist in raising funds to defray the expenses of the recention.

Evasion of Requirements a Felony.

Topeka, Kans., Aug. 10.—J. W. Radford, state grain inspector, who has returned from Mexico, where he made investigations, asserts that he found conclusive evidence that several Kansas City grain dealers substitue inferior grades of wheat after the state grain inspection department has inspected and given grades on the grain in cars. Mr. Radford will ask that the legislature pass a law, making this sort of evasion of inspection requirements a felony.

Kills Wife Because of Not Cooking.

New York, Aug. 10.—Vincenzo Lupo, who shot his wife to death and then committed suicide, said in his ante-mortem statement that he shot his wife because she refused to make him a cup of coffee. "When I realized what an awful crime I had committed," he said, "I shot myself."

IS KILLED WHILE AT MANEUVERS

Another Dies at the Austin Camp, Making Three Deaths to Date.

Austin, Tex., Aug. 10.—Two deaths occurred at Camp Mabry Wednesday, making three since federal mobilization here on July 26.

Jesse Cantiss, of Fort Worth, attached to troop K, of the First cavalry, U. S. A., was shot during the maneuvers in the mountains at 9 o'clock and died shortly after noon. Immediately following his death the maneuvers were called off, and the troops returned to camp. All the men are supposed to have had blank cartridges in their guns at the time, and it is not known how the killing occurred.

The other death was that of Roger W. Lockhart, of Dallas, who was a member of the First Texas Battery field artillery. He was hurt, it is stated, in a personal encounter before he arrived at camp Monday morning, and upon it being ascertained that he had been badly hurt he was sent to the city hospital, where he died. His death was not due to any trouble while in camp, however.

An investigation will be made as to the killing of Cantiss.

Negro Assailant Captured.

Atlanta, Ga., Aug. 10.—Andrew Bates, who committed the murderous assault upon Patrolman Covington, at the intersection of Butler street and College Place, at 12:30 on the morning of April 6, has been captured in Chattanooga. The officer was patroling his beat at midnight, when a burglar attempted to break in a house, a negro running swiftly passed the officer who gave chase. In the chase the revolver of the officer fell out of his pocket, and when the fugitive was finally overhauled, a hand-to-hand encounter ensued, in which the negro kicked the officer in the abdomen, and rendered him unconscious. The negro finding the pistol returned and fired two shots at the prostrate form of the policeman, one ball grazing the temple and the other one striking his arm. The negro, thinking he had killed the officer, fled and had not been seen or heard of until his capture in Chattanooga.

Suspected Men Discharged.

Union S. C., Aug. 10.—David L. English, of Hartsville, S. C., J. Richards English and two negroes, John Sarton and John Renwick, charged with the murder of Mose Hughes, whose body was found in the Tiger river, June 7, were discharged Wednesday on the ground of insufficient evidence. The negroes afterwards were bound over as witnesses in the cases. Letters were produced to show that W. D. Smith, the name by which Douglas English, now out on bond, had gone to Atlanta to avoid detection, knew the details of the murder of Hughes.

Burglar Dies of Wounds.

Macon, Ga., Aug. 10.—Perry James, a negro who was fired upon at the Pine street bridge boarding place of E. W. Braswell over a week ago as he was attempting to burglarize the house died at the city hospital as the result of a wound in the hip. He was first thought not to have been seriously hurt, but blood poison set in and there was not relief. James had enough burglary charges against him waiting for his recovery to have made him a felony prisoner far beyond the period of his natural life.

Hawaiian Singer Stricken Dead.

Memphis, Tenn., Aug. 10.—The body of the native singer, Juan F. Edwards, of the Royal Hawaiian band, who dropped dead of heart disease Tuesday afternoon while reading a newspaper in his room in his hotel, will be shipped probably Friday morning to Honolulu for burial. Edwards was one of the original members of the Kawaihua Glee club, which toured this country in 1899. At that time he played the kulele, a small guitar of native workmanship.

Five Children Perish in Fire.

Omaha, Neb., Aug. 10.—Five children of Thomas O'Daniels, of Seymour Park, a suburb of Omaha, perished on Wednesday evening in a fire, which destroyed the family residence. Mrs. O'Daniels was seriously burned, and may not recover, and her husband was badly burned in an effort to save his family. Three valuable horses were burned to death in the stable.

HOUSE GIVES MONEY TO STATE COLLEGES

Academy for the Blind Receives $65,000 Appropriation.

PENSION BILLS CONSIDERED

Afternoon Session Was Devoted to the Discussion of These Bills on the Motion of Henry Revill, of Meriwether County.

Atlanta, Aug. 10.—Four more state institutions were handsomely provided for by the house Wednesday. These were the Academy for the Blind, at Macon; the North Georgia Agricultural college, at Dahlonega; the Institute for the Deaf and Dumb, at Cave springs, and the State Normal School, at Athens.

The first of these received $65,000, the second $20,000, the third, $25,000, and the latter $15,000 making a total of $120,000 appropriated for public institutions Wednesday. These measures received favorable votes ranging from 113 to 128, thus evincing the overwhelming sentiment in favor of properly providing for these institutions.

The main contest centered in reducing the $65,000 appropriation for the blind academy, but the house left the figures just as the committee had reported, while a cut of $5,000 was made in the second $10,000 in the third and $10,000 in the fourth of these institutions respectively, cutting the aggregate appropriation down from $145,000 to $120,000.

Near the close of the morning session the Perry bill for an agricultural school in each congressional district was taken up and being read, by unanimous consent, was postponed until Thursday morning, when it came up as the special continuing order.

The measure is designed as one of great importance to the farmers of the state, and is expected to give a great impetus to the agricultural interests of the state.

The afternoon session was devoted entirely to the consideration of private pension bills, providing for the payment of pensions of dead soldiers to their widows for those years in which they were passed up, but the pensioner died before receiving this money.

These widows of old soldiers are indebted to Representative Henry Revill, of Meriwether, for this money, as he contended strenuously for Wednesday's session for the consideration of these bills, as they most probably would not have been reached in the rush at the close of the session, but for Wednesday's action.

Mr. Hall, of Bibb, wanted the afternoon session devoted to the regular order, but Mr. Revill spoke earnestly and eloquently in behalf of these old widows, and criticized Mr. Hall vigorously for his opposition to their consideration, which Mr. Hall did not seem to relish much.

The rush to get local bills passed will come quick and fast now as there are only about four more days in which house bills can pass the senate.

By an almost unanimous vote, there being only one dissenting voice, the Western and Atlantic railroad committee of the house reported adversely on the bill of Senator W. S. McHenry of Floyd county, to lease the Western and Atlantic railroad for a period of sixty years from the expiration of the present lease—thirteen years from now.

As previously stated this lease provided for a monthly rental of $60,000, making a total yearly rental of $720,000.

The prevailing sentiment of the committee was against any lease at this time. The Alexander proposition to extend the road to the sea seemed to have strong support in the committee, while there were one or two opposed to the extension.

Mr. Brinson of Decatur thought they might later on, in view of the Panama canal, wish to seek an outlet on the gulf. It was also suggested that a double prong might be necessary, one to the Atlantic and the other to the gulf.

Representative Alexander, of Fulton, entered into a lengthy discussion as to the freight rate discrimination against Georgia, saying that the holding and extending of this road would protect the state.

Folk Wants Good Roads.

Stearnsville, Mo., Aug. 10.—Folk will ask the next general assembly to pass a law by which the retail liquor interests will be taxed for the benefit of the public highways. He plans to have each dram shop to pay a license of $200 a year, the fund created to be used to build good roads, beginning with two great free high ways across the state, one from Kansas City to St. Louis, the other from Ion to the Arkansas line.

Religious Maniac Leaps Into Fire.

Richmond, Va., Aug. 10.—A sensational attempt at suicide occurred Wednesday. Edward C. Bolwer, an employe of the American Tobacco company tried to cremate himself by jumping into the furnace under the boiler at one of the company's factories. He was dragged out before he was finally burned. Religious mania is assigned as the cause of the act.

Gave His Life to Save Girl.

Beloit, Wis., Aug. 10.—Henry D. Smith, field secretary of Beloit college, aged 25 years, died Wednesday of exposure in his efforts to rescue Miss Ruth Mecumber from drowning at Lake Geneva. He was born in China, whither his father, Dr. Arthur Smith, who has been a missionary there for years, is now bound from a visit in America.

Conference Resumes Meeting.

Northfield, Mass., Aug. 10.—With about 4000 people in attendance the meetings of the Northfield conference were resumed here Thursday. The Rev. G. C. Campbell Morgan, of London continued his address on the "Books of Leviticus." Rev. T. Johnston Harcss, of Cambridge, England, gave another talk in his series on "The Books of St. John."

Damage Caused by Rainstorm.

Jacksonville, Fla., Aug. 10.—A rainstorm Wednesday night caused much damage by the washing out of street and sidewalks. Water in the residence portion of the city is so high that boats are floating here today. Factories depending on waterpower have been compelled to close down. The damage also extended to the tobacco plants.

Minister Dies from Hydrophobia.

Chattanooga, Aug. 10.—A special to the Times from Morristown, Tenn., says that James Brady, a local Baptist minister, died in the county jail from hydrophobia. Brady had been bitten by his own dog, which was soon after killed. A few days later, Brady developed symptoms of rabies, became uncontrolable, and was placed in a cell to restrain him. He suffered fearfully.

Man Found Dying on Isle.

Atlanta, Aug. 10.—In a dying condition from an overdose of morphine, Guy T. Branch, of 73 Central place, was found on an island in the Chattahoochee river, near where Peachtree creek intersects, by county officers Wednesday afternoon. Branch was brought into the city over a river car, and placed in the Grady hospital.

Macon Receives Her First Bale.

Macon, Ga., Aug. 10.—H. S. James, a prosperous and well-to-do farmer of Fitzgerald, brought the first bale of cotton of the season to Macon Wednesday. The new bale was a good one and contained a fine quality of the staple. The market was not tested, the cotton remaining yet to be sold.

Tramp Kills Town Marshal.

Calera, Ala., Aug. 10.—Town Marshal Sam Fulton was shot and killed by a negro hobo Tuesday night at 11:30 o'clock. The marshal attempted to arrest the negro for stealing a ride on a freight train. The negro escaped.

Army Officer Takes His Life.

Laurel, Miss., Aug. 10.—Sergeant Daniel Manning, of the United States army, in charge of a recruiting post here, committed suicide by cutting his left wrist with a razor. No cause for the act was learned.

WORK OF MOB SAME AS MURDER

Judge Declares All Members of Lynching Party Guilty.

MOB'S WORK IS CONDEMNED.

Judge Long, of Rowan County Court, Very Severe In Denunciation of the Infuriated Mob That Lynchd the Negroes at Salisbury.

Charlotte, N. C., Aug. 10.—Judge Long called Rowan court to order at Salisbury at the usual hour Wednesday. Barring the keeping of his engagement with it at this hour, it was an unnecessary session. The grand jury has not made a presentment of the case against George Hall, who is known to be one of the men leading the mob to its death-dealing work of torture and mutilation. Another arrest has been made and the evidence against a fellow by the name of Cross is being worked up.

Solicitor Hammer is being urged to proceed with his work against Hall. The people wish to see an example made of him, and his trial concluded while the military is here to protect him and the town.

Judge Long was still harder on the mob Wednesday. He said:

"The court is informed that a kinsman of the murdered people plead with that band of cut-throats and murderers to let the law proceed. Any man who aided and abetted in that lynching was guilty of murder in the first degree. Any man who gave encouragement by word or presence, or took any part in it, was guilty of murder in the first degree.

"The question now is simply whether the law shall be enforced by the courts or by a mob, and Rowan county should to a man take a stand on that proposition. When sifted to the bottom you will find, as I have said before, that no man of character and standing was in that mob. I am going to perform my duty as I see it, and have no fear. I said before I had apprehended any trouble that the law of the lan dwas stronger than any local mob. I do not take that back, notwithstanding the shots about my ears that night. 'The mills of the gods grind slowly, but they grind exceedingly fine.'

"The honor and integrity of Rowan must be preserved."

The grand jury then retired to its deliberating room and the sitting was over.

The three companies of militia are still on duty around the jail and the town of Salisbury is practically under military rule, but beyond the arrest of Cress there have been no developments.

Feeling ran high in Salisbury again Thursday when news reached here that the barn on the farm of Isaac Lyerly, for the murder of whose family the three negroes were lynched here Monday night, was burned shortly after midnight presumably by the friends of the negro lynched.

Two horses were so badly burned that they had to be shot. The militia is still on duty guarding the jail, and court house. The case of the alleged lynchers under arrest probably will not be taken up at this term of court.

George Hall, the first man arrested, desires to submit to a charge of conspiracy, the maximum penalty for which is a sentence to the penitentiary. It is expected many indictments will be returned by the grand jury.

Mitchell Addresses Miners.

Knoxville, Aug. 10.—President Jno. Mitchell of the United Mine Workers of America, Thursday addressed the joint convention of coal miners and operators of District No. 18, including mines of East Tennessee and southwestern Kentucky. Mr. Mitchell cautioned both sides to exercise conservatism and sound business judgement in their negotiations, and advised both to prepare to make concessions in behalf of peace and harmony throughout the district. He predicted the time when strikes and lockouts will be no more, but said "we will never live to see it."

RURAL MAIL ROUTE EXAMINATION TODAY

Applicants for Rural Mail Carrier Routes to Be Held.

THE JOB IS A GOOD ONE

It Pays a Salary of $60 Per Month, and is a Position Which Insures an Easy Job and Steady Employment the Year Round—Many Applicants.

The applicants for the position of rural mail carrier, United States government, for routes No. 2 and No. 3, Gainesville delivery, will meet in the postoffice at 9 o'clock this morning, when examinations in the civil service department will be held.

The examination will be held for the routes recently established or recommended by the United States government, which will extend from Gainesville to Rocky Point and from Gainesville to Paradise and return.

The carriers of the free rural routes in this country will be paid at a rate of $720 a year, or $60 per month, and will be required to feed their teams. This proposition has been considered a good proposition by many, and several applicants will take the examination today, which will be under the supervision of Benj. T. Arnow.

WORTHINGTON NOTES.

That Gay Resort Has Its Share of Social News for the Week.

Worthington, August 10.—The rain in this section seems to have ceased, for a while, and fishing has begun in the Santa Fe again.

I. F. Lamb caught several channel cats last Friday, the largest weighing five pounds.

The river is within banks once again. For the past three weeks Mr. Lamb has been spending most of his time sitting on a log watching the river go down. The remainder he spent grubbing the earth for worms for bait, and he now has a solid barrel, and as he knows how to use them, look out for fish.

Quite a number from adjoining towns spent Sunday at the springs.

A. Hercules spent yesterday with his wife, who is spending the summer at the springs. Mrs. Sherman of Starke is spending several week here. She is accompanied by her little son Frank.

J. G. Moffett of Jacksonville spent yesterday with his wife and baby. He was accompanied by his friend, Dr. Humphries.

J. W. English of Tacoma, and T. B. Ellis, Jr., of Gainesville, passed through Worthington en route to Gainesville.

C. B. Scarborough of Jacksonville is registered at The Worthington.

C. C. Wetherington has just completed a cold storage plant for Wells & Lamb.

W. G. Chapman spent several days here last week as the guest of the Lamb family.

I. F. Lamb left last night for Newberry, where he goes to look after business interests.

Miss Pet Wells, accompanied by her brother and Dr. Johnson, has gone to Atlanta for a few weeks, to have her eyes treated. From there she will go to Asheville, N. C., and join a friend, and from thence accompany her to her home in Alabama.

Miss Mary Baird, who has been the guest of Miss Mabel Lamb, returned to her home in Gainesville Monday.

A Fair Proposition.

We will no longer run a regular pressing club, but will do your cleaning, repairing, pressing and altering in the best manner possible, at the lowest possible cost, for reliable work. Also see us when you are in need of a suit, pair of trousers or an overcoat. All work strictly up-to-date. Satisfaction guaranteed. Call and see us at 103 West Main St., North, Gainesville, Fla. Wm. Scott & Co., Tailors.

Father Commanded Son to Kill.

Frederick, Md., Aug. 10.—At the command of his father, Fred Debold, 11 years of age, son of John Debold, shot and killed George Smith, a son of their neighbor, Edward Smith, near here Wednesday evening. There had been bad feeling between the two families and Wednesday they quarreled over blackberries the Smiths had picked on Debold's land. "Shoot him!" said Debold to his son, pointing at the younger Smith. The boy fired a load from a shotgun which struck Smith over the heart, killing him instantly. Both Debold and his son are now in jail here.

Presence of Mind.

An example of presence of mind was that of a woman who, being left alone in the house one night, heard a noise in the dining room and knew that burglars were removing the plate. She was too far from any other house to summon assistance. Seizing a large paper bag which lay on a table, she inflated it and broke it on the wall of the stairs with a loud report. The thieves, mistaking it for a pistol, dropped their plunder and fled. There is no quality perhaps which we all covet more than this ready wit which makes action as prompt as thought in danger. Self control, which we can cultivate, helps us to attain it in a degree, but it is largely a gift of nature, like a keen eye or nimble tongue. We who are born without it may console ourselves with the fact that emergencies come but once or twice in life, while every hour calls for the use of common sense, patience and self control, all of which we can have if we will.

A Dog and a Bull.

A certain Irish officer responsible for dog licenses had a system of discovering his victims. He knocked at the side door of every house, and if a dog barked he immediately demanded that the owner show his license. Every dog must have his day, however, and one day this collector reached the street with his lower garments nearly intact. "Bedad," he said, eying the victorious terrier through the railings, "that's the sort of dog I like to see out o' me sight!"

Arabian Snuff.

Snuff in Arabia is not used as it is with us, although one occasionally sees a snuffer, but the snuff is ordinarily made into a pill of about the size of a robin's egg and is placed between the lower front lip and the teeth. This manner of using snuff is common among the laboring class, and almost every body that is met in the street has his lower lip puffed out by a ball of snuff behind it. Arabian snuff is prepared out of the ordinary powdered tobacco, unrefined sugar and potash.

Sneezing.

Sneezing is the best brain clearer known. Many persons conclude an attack of faintness or fainting with a violent sneeze. Our ancestors took snuff from a belief in the efficacy of sneezing. But tobacco so taken is in part absorbed into the blood and hurts the system. Tickling the nostrils with a feather or straw will act as well as taking snuff. Try it when you feel faint. It cannot do harm.

After the Race.

Owner (irately)—Yes, if you hadn't stopped to take up that girl in your machine you would have won the race. You were beaten by a mile. Chauffeur—Well, you know a miss is as good as a mile.—Chicago News.

A Mistake.

Hewitt—Will you watch my trunk for a minute? Jewett—What do you take me for, a chest protector?—New York Press.

OIL ON TROUBLED WATERS.

An Effective Remedy That Has Long Been Neglected.

A hundred and fifty years ago Benjamin Franklin learned of a Dutch captain who saved his ship from foundering by spreading a small amount of oil upon the waves, which prevented their breaking, and of Portuguese fishermen who made safe landings in the surf by a similar device, says the Philadelphia Record. Keenly interested in everything that was scientific, and especially in everything that was useful, he gave all the publicity he could to this information, and he made with partial success the experiment of smoothing the waters at the mouth of a harbor by ejecting oil through a perforated pipe.

One would suppose that the maritime world would have seized eagerly upon this device and no ship would thereafter have gone to sea without oil and the means of spreading it over the water. Yet the maritime world paid absolutely no attention to it. In the course of the century following Franklin's observations two or three vessels were saved by the use of oil and made the facts public, but other sea captains and owners were uninfluenced. About forty years ago a captain posted in the Maritime Exchange in New York his successful use of oil, and it was treated simply as a sailor's yarn or a marine curiosity.

About thirty years ago a Scotchman repeated Franklin's experiment at a dangerous harbor mouth with complete success. Chambers' Journal took especial pains to give publicity to this and to the use of oil by shipmasters. About twenty-five years ago two or three cases of the use of oil attracted general attention and got into the magazines. Twenty years ago the hydrographic office of the navy department published a monograph on the subject, giving all the information then available, and a few years later a paper on the subject was read before the Franklin institute in this city.

Since then the use of oil has been not uncommon, though far from general. As the results of experiments by Lieutenant Wycoff of the navy, retired, Representative Jones of Washington offered in congress a bill compelling all our lake and ocean ships to carry oil and the appliances for its use. Here is a device for saving lives and property which has been demonstrated over and over again to be of great value, which is simplicity itself and ridiculously inexpensive, which has been known to the world for centuries—for some of Franklin's knowledge came from Pliny—and which even at this late day is nevertheless employed by a very small number of ship owners or masters. The indifference of the men whose property and lives are directly involved inspires this effort to force the oil safeguard upon them by an act of congress. The negligent attitude of the maritime world toward this method of preventing the breaking of the waves is incomprehensible.

Pagan Rome's 700 Years of War.

In pagan Rome war was the rule, peace was the exception. The temple of Janus, in Rome, was always open in time of war and was closed in time of peace. From the reign of Romulus to the time of Caesar, embracing 700 years, the temple of Janus was always open, except twice, when it was closed only for six years. It was subsequently closed at the birth of Christ, as if to symbolize the pacific mission of the Redeemer of mankind. The United States has enjoyed twelve years of peace for one year of war, while the Roman empire enjoyed less than one year of tranquillity for every century of military engagements.—Cardinal Gibbons at Lake Mohonk.

Don't Grumble

When your joints ache and you suffer from rheumatism Buy a bottle of Ballard's Snow Liniment and get instant relief. A positive cure for rheumatism, burns, cuts, contracted muscles, sore chest, etc. Mr. I. T. Bogy, a prominent merchant at Willow Point, Texas, says that he finds Ballard's Snow Liniment the best all-round liniment he ever used. Sold by W. M. Johnson.

IN THE MAYOR'S COURT.

Jesse James, Man With Notorious Name, Was Very Disorderly.

Jesse James, a negro who has a name worse than his nerve really implies, was arraigned in the mayor's court Friday morning upon a charge of disorderly conduct.

It appears that Jesse, who is inclined at times to be a little bit sporty, had been galavanting around with the roosters and pullets of that section of the city known as Frog Alley, when he got a little more than was coming to him, probably because he "slipped in" a couple of elbow crooks more than he was entitled to. Jesse did not get "bad," but "pestering," because it is claimed that he pestered the residents of that classic shaded thoroughfare to such an extent that they were compelled to summon an officer, and Officer Kite responded.

Officer Kite pulled Jesse in, but after explaining to the court that he "didn't mean no harm," and satisfied the court that he was merely having a little fun and didn't intend to cause any row, the case was compromised with the payment of the costs.

Jesse is really not a bad negro, but is full of fun and practical jokes which some of his associates could not understand or appreciate. For instance, no person likes to be suddenly knocked over the head with a battling-stick unless they know previously that it is to be a joke.

THE LOUISE SCHOOL

Patent Desks and Other Improvements Will be Made.

Chas. A. McKinney, a progressive farmer and all-round good fellow of Graham, was in the city Friday.

Mr. McKinney is a trustee of the Louise school, and came on business connected with that school. He wanted certain things and, as usual, got what he wanted. The school next term will be supplied with patent desks and other modern furniture, and will be one of the best in the county in its class. The patrons of Louise school are indebted to Mr. McKinney largely for this improvement.

Has a New Sprinkler.

Through the energy and efforts of the City Council, backed by a popular sentiment, a new Studebaker sprinkling wagon has been installed by the city, which is capable of keeping the streets well watered during the summer months hereafter. The sprinkler is of 800 gallons capacity, and will throw a twenty-four-foot stream of spray on each trip. It is calculated that the sprinkler will make a complete sprinkling of three blocks with one "loading," which means that with ordinary efforts the streets can be kept in a comfortable condition.

New York Carpenters Strike.

New York, Aug. 9.—The carpenters of the city went on strike Thursday for 35 cents an hour and recognition of the union. Over 14,000 men are out.

Sympathetic Strike Spreads.

Pittsburg, Aug. 10—A sympathetic strike movement inaugurated ten days ago by the Pittsburg branch of the structural trades alliance to aid the carpenters and against the employment of non-union men, has spread to a number of large building operations and work has been suspended on the Carnegie institute, DuQuesne power plant, Philadelphia company's building, and the Mercy hospital extension. The sympathic strike compact includes all the building trades, but brick layers and plasterers.

Pope Has Attack of Heart Weakness.

London, Aug. 10.—A dispatch from Rome to the Exchange Telegraph company, says that shortly after his return from the ceremony attending the celebration Thursday of the third anniversary of his coronation, the pope had a somewhat severe attack of heart weakness. He was attended by Dr. Lapponi, who gave him relief.

Hot Wave Broken.

Philadelphia, Aug. 10.—Cooling showers Wednesday night broke the force of the hot wave and brought relief from the high temperature of the past five days. During the night, however, there were four additional deaths from heat, making a total of 22 fatalities during the heated term. The cases of prostration numbered 83.

Threw Child From Window.

Cincinnati, Aug. 10.—Thomas McKenna, a waiter at the Grand hotel, threw his 3-year-old child from the third story window of his home at 109 John street Thursday and then jumped from the window to the sidewalk below. The child was dead when picked up, while McKenna died on the way to the hospital. McKenna is believed to have been mentally unbalanced.

Rumor Incorrect.

Rome, Aug. 9.—The announcement made in Toledo, O., that Bishop Weber, of Lemberg, Galacia, Austria, had been appointed by the pope to look after the welfare of the Poles in America is incorrect.

Undertaker For Pet Birds.

An old branch of business conducted by a New York establishment devoted to supplying and boarding feathered pets is that of bird funerals. Children who have lost their canaries or other songsters through disease or accident bring the little cadavers there to be laid out in becoming style.

Tiny coffins just large enough for a bird are kept in stock; also quantities of pale pink and blue cotton. The latter is used for filling the bird coffin, and on it the bird is laid. The effect when birdie's remains are "decently" composed upon the pink and blue is excellent, sufficiently so to console the little mourning master or mistress. The children then convey their coffin away for interment. Funeral expenses are light.—New York Press.

Perfumes.

Perfumes have been used from the earliest times. The burning of perfumed incense was one of the rites of the Hebrew and pagan religions, and perfumes of various sorts were used by nearly all the nations of antiquity. Both the Romans and the Greeks were skilled in making perfumery. It was from the Arabs, who possessed the art of preparing perfumed waters, that the use of perfumes was introduced into mediaeval Europe.

Cured Hay Fever and Summer Cold.

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCallum & Co.

MIND AND MUSCLE.

Influence of Former Upon the Latter Plainly to Be Seen.

In all feats of skill the influence of the mind is most important. To perform in thoroughly good style any difficult feat of skill it is absolutely necessary that the mind must be free from fear, anxiety or nervousness. I knew, once years ago, a man who had been a bullfighter in Spain. During one of his glowing accounts of the sport I expressed my surprise that he should have left the life. His reply was: "One day I was about to enter the ring and I had a little creepy feeling of fear. Then I stopped for good. The man who feels fear is sure to be killed."

And it is equally true that the man who fears is heavily handicapped, no matter what the contest may be. Anxiety and nervousness are closely akin to fear, and both are so powerful in their effect as to render it almost impossible for one to perform perfectly any difficult or delicate feat of skill. The man who is afraid or anxious or nervous is almost sure to fail.

All emotions when intense have a powerful effect on the muscles. This is plainly seen in the tension of the muscles, clinching of hands and arms, as well as of the face, in anger, in the spasmodic breathing of excitement, in the muscular weakness and trembling of fear, and in many other conditions that might be mentioned. Now, in feats of skill of whatever nature, whether balancing, juggling, marksmanship, tumbling or shot putting, it is necessary that just the right muscles must be used at just the right instant and to just the right degree. When, however, the muscles are disturbed by emotional excitement such delicate adjustment is impossible and the probable result is failure.

The mental state most conducive to success in games of skill is confident calmness. And by practice this state of mind may be made a habit, a habit most valuable in all games of skill, even in that game of skill called life.—Dr. W. R. C. Latson in Outing.

Children in Pain

Never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Sold by W. M. Johnson.

The Wood Pile.

Proofreader—You speak here of Nutrich's house as "a magnificent marble pile." Editor—Well? Proofreader—Well, it isn't marble at all. It's a frame building. Editor—That so? Then just substitute "wood" for "marble."—Philadelphia Press.

UNHAPPINESS DISPELLED.

Men and Women Unanimous About It.

Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their craniums. It will be good news to the miserable of both sexes to learn that Newbro's Herpicide has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction. Herpicide is a new preparation, made after a new formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

THE BREAKERS

THE BREAKERS is second to none in location and beach attractions. It is the ideal hotel for summer tourists. Situated upon a high bluff overlooking the ocean, and less than two hundred feet from the rolling surf, it combines the benefits of an ocean voyage with the pleasures of a shore resort. The rooms are large all outside, en suite and single with baths, and thoroughly screened. The dining-room is on the ocean side and one of the most attractive rooms of the hotel. Electric lighting, telephone service and immediate connection with an up-to-date livery.

Bus will meet all trains.

In addition to The Breakers it has been possible to add the use of the Clarendon bath houses, bowling alley, pool tables, dancing pavilion and the famous Clarendon fishing pier. The table will maintain the high standard to which Mr. Holt pledges himself, wherever he assumes the management.

The remarkable record for healthfulness, especially for children, is a well established feature.

The proof of all is to join with the many who are booking for the season.

For rates and reservations apply to BERT J. HOLT, Seabreeze, Fla.

There may be no real happiness in riches, but there is real unhappiness in poverty.

If there's so much room at the top, how is it a man is pushed off so quickly?

Days are beginning to shorten at both ends and will continue to decrease until December 21st.

Honestly, now, when Russell Sage could gather together only $60,000,000, what's the use of the rest of us trying?

The government has introduced savings banks into the Philippines. Something had to be done in a country where stockings are so scarce.

New York City reports a shortage of chorus girls. Inasmuch as chorus girls never become superannuated it must be that they are marrying off.

"To Hell and Back" was the title of a sermon delivered by Rev. C. T Russell at Asbury Park, N. J., the other day. Our reports indicate that it was a hot talk.

An Atlanta man has been arrested for sitting on his front porch and hugging and kissing his own wife. They evidently won't stand for a novelty like that.

A Japanese professor in Chicago says the murder of bachelors in this country is so great because courtship is so risky. Wonder what his opinion is of marriage?

One of the most serious charges brought against President Roosevelt is that he acts as though he didn't intend to leave any opportunity for his successor to make a record.

It remains to be seen what action President Roosevelt will take in the matter of the Tennessee colored woman to whom six babies were born a day or two ago. Does he believe in encouraging that sort of thing?

KING COTTON.

Commenting upon the favorable prospects for a good cotton crop the present season, The Wall Street Journal says a crop of twelve million bales would be a great relief to a large part of the industry of the world, by assuring mills now in operation a fairly good supply for the coming year. A crop of this size would also have a very important bearing on the money and credit operations of the country. Twelve million bales, of five hundred pounds each, at ten cents a pound, would have a farm value of six hundred million dollars. About two-thirds of this would go into foreign trade, and give the United States a credit of four hundred million dollars, or substantially the same as last year.

In domestic finance, the cotton crop is of the utmost importance, and a liberal yield is a thing to which the South looks forward with much expectation. There is probably no better collateral for loans than raw cotton. At almost any time the owners thereof can borrow money up to seventy-five per cent of the market value While the cotton remains in the country, therefore, the crop is capable of commanding cash advances to the amount of four hundred and fifty millions of dollars.

As a factor in the purchasing power of the cotton belt, the crop has enormous significance. Between September first and January first, a period of four months, probably two-thirds or three-quarters of this crop will be marketed. The volume of transactions in the sale of such a proportion of the cotton crop will have to pass through the hands of the various classes of retail and wholesale traders, and so represents a stream of business of colossal proportions, when taken as a whole.

What form the purchases of the consumer will take is not easy to anticipate. Only a few years ago, when an enormous cotton crop was in sight, a merchant in a northeastern portion of South Carolina ordered a carload of clocks. When asked what he meant to do with them, he replied: "I know that the people in the surrounding country are going to buy something with the increased money at their disposal. They are likely to buy what we have in stock, especially if it is something for personal ornament and utility combined. Next to clothing and food, they want to add something to their house furnishings; and clocks seem to me to be the most likely thing within their reach. They are not expensive, and will be to many people a sign of luxury which the poor are always anxious to get hold of."

The broadest bearing of the cotton crop on business is seen in its relation to foreign exchange. The capacity to shake a larger proportion than usual with the foreign market means that our money market is apt to be all the easier, on account of this increase. Exchange will be more favorable to the United States, and our industries and our commerce, as well as our financial institutions, will be less likely to be restricted in their operations by tight money. This is all the more so, because of the prospect of the grain crops supplementing the cotton crop with a liberal proportion for export. Authorities on the subject figure that we may have two hundred million bushels of wheat to spare for foreign account. Last year we had one hundred million. A million more bales of cotton than last year, a hundred million more bushels of wheat for export are among the good things of the financial outlook.

So long as man's health stays by him and he is honest to himself, and to his neighbor, he will ultimately reach the goal he is striving for.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENNEY & Co., Toledo, O.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

A Southern man, J. W. Tatum, of Durham, N. C., has recently invented a railroad telephone, which is about to be given a thorough test, and if it is a success it will be one of the greatest blessings of modern times. It is claimed that by this device, engineers will be enabled to talk to each other while their trains are running at full speed, that any engineer on any part of the road can be called from any station, and that in case two trains are in danger a gong will sound in each cab, warning each engineer. If the invention proves a success it will put an end to collisions, as telephone warnings are given automatically when trains are three miles apart.

One William Reed has written a big book setting forth his proofs that the earth is hollow and that the poles are the openings to a big hole through the earth. He thinks it probable that some of the explorers who have gone in search of the north pole, sailed into the center of the earth and of course are unable to return; and he thinks that if Walter Wellman reaches the north pole in his drigible balloon he will be drawn into the great tunnel and will never return.

In Japan, where the people live an out-of-door life, consumption or tuberculosis is practically unknown. In this country, where we have packed our working people into dark and unwholesome flats and tenements it has been estimated that over 200,000 people a year fall victims to this scourge, and a million unfortunates are afflicted by it.

Just think of the heartlessness of those school trustees at Wilkesbarre, Pennsylvania, who have made a rule that no teacher in the public schools shall commit matrimony during the school year. Will President Roosevelt approve of this stab at "race suicide?"

You Ought to Use a Fay-Sholes Typewriter

It is simple, easy to operate, light running, a powerful manifolder, makes but little noise, does nice clean-cut work, the key action never tires, there are no greasy cups or bearings to keep clean, and the details of work. Every Fay-Sholes Typewriter is handsomely finished, is durable and fully guaranteed.

You can purchase a Fay-Sholes Typewriter for cash or on easy payments. We take other typewriters in exchange as part pay. Regular correspondence machine, either No. 6 or No. 7 model, complete with cloth cover, box of tools and an instruction book for: $100.00 on easy payments of $10.00 down and $7.50 per month—no interest.
$90.00 payable $22.50 down and $22.50 in 30, 60 and 90 days—no interest.
$85.00 to responsible parties on 30 days open account.
$80.00—Cash with Order.

A Fay-Sholes Typewriter will be sent upon request, to any reliable individual or concern, anywhere, at our expense, for a ten days' free trial to prove its worth. Your name and address will bring our booklet and sample of two color writing.

NEWS FROM ALL PARTS OF FLORIDA

Brief Happenings From Various Sections of State.

THE MOST IMPORTANT EVENTS

Transpiring in "The Land of Flowers." Things "Boiled Down" to Suit the Busy Reader—Items of Interest to All Classes.

One million pounds of leaf tobacco was shipped from Pensacola the other day on the steamer Virginia.

The lumber is being placed on the ground for the new cotton gin and grist mill. McIntosh is yet destined to be a manufacturing town.

The Carnival Association will have the editors as their guests during carnival week in Jacksonville. Everything will be done to entertain the visitors.

The date for the joint debate between Governor Broward and John S. Beard of Pensacola, upon the questions involved in the drainage scheme, has been definitely set for August 20th.

The congestion of freight still continues in Jacksonville, but the conditions are materially improved, and it is hoped in a short while everything will be moving along satisfactorily.

H. J. Enterkin, who was employed in the McVoy mills two miles from Cantonment, was the victim of an accident a few days ago that almost cost him his life. A belt in the mill broke and he was caught in it and only his wonderful nerve saved his life.

A new national bank opened its doors to the business world of Florida in Jacksonville Thursday, to be known as the Florida National Bank of Jacksonville, a converson of the Florida Bank and Trust Company. The new national bank has been designed by Secretary Shaw, of the Treasury Department, a United States depositary. It will, as a national bank, continue its savings department, which branch of business will have the same safeguards and be under the same government supervision as its general banking business.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

Their First Bale Arrives.

New Orleans, Aug. 10.—The first bale of Louisiana and the first bale of Mississippi cotton for the season reached here Thursday. The former was raised near Amite and the latter near Columbia. Neither was classed and each sold at 12 cents a pound.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy, the mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Home of Swamp-Root.

NEGRO IS FINALLY RUN DOWN.

It Is Believed Joe Morris Was Lynched At Bullards.

Macon, Ga., Aug. 10.—Chief of police Connor Wednesday night, received a telegram from Bullard's station, in Twiggs county, stating that Joe Morris, a negro, who recently attempted to assassinate George Bloodworth and family near here, and whom a posse has been trailing with dogs for days, had been captured. The telegram gave no details. It was signed by "W. E. Everett."

The attempted assassination of the Bloodworths aroused great indignation and it has been openly stated all over the surrounding country that the negro would be lynched if caught. It is thought here, that, if the reported capture is true, Morris has been lynched by this time, but no word to that effect has been received.

The chase of Morris has been one of the longest and most persistent Georgia has had in years. The chase lasted ten days without a break.

Mr. Bloodworth is in a critical condition.

Tugboat Men Strike.

New York, Aug. 10.—A strike of several hundred men as deck hands, oilers and firemen on railroad tugboats in this harbor badly tied up the railroad tug-boat fleet Thursday. This in turn prevented the movement of a large amount of freight from the railroad terminals in Jersey City to this city. Should the strike be prolonged, it is expected that hundreds of carloads of food supplies for this city will be tied up as a large per centage of it is lightered to the city and the railroad tugs do the towing.

Hartrdge Secures Documents.

New York, Aug. 10.—Harry K. Thaw's counsel, Clifford J. Hartridge, has received from Black, Olcott, Gruber and Bonynge practically the last documents and reports obtained by the firm as counsel for Mrs. William Thaw, who employed them to get all the evidence that might at any time help her son. When Mrs. Thaw dismissed the firm she said that she wanted everything that had been obtained during their term turned over to Mr. Hartridge.

Disposition of Indian Affairs.

Denver, Colo., Aug. 10.—Former U. S. senators, W. A. Clark, of Montana; Chester Long, of Kansas; F. B. Brandegee, of Connecticut; C. N. Clark, of Wyoming, and H. H. Teller, of Colorado, held a meeting at the Brown Palace hotel in this city Wednesday night. These senators were appointed a committee to provide for the final disposition of the affairs of the five civilized Indian tribes in Indian Territory.

Why Fret and Worry

When your child has a severe cold? You need not fear pneumonia or other pulmonary diseases. Keep supplied with Ballard's Horehound Syrup—a positive cure for colds, coughs, whooping cough and bronchitis. Mrs. Hall, of Sioux Falls, S. D., writes: "I have used your wonderful Ballard's Horehound Syrup on my children for five years. Its results have been wonderful." Sold by W. M. Johnson.

Twenty Picnickers Injured.

Pittsburg, Aug. 10.—Crashing down a 30-foot embankment Wednesday night, the second of two picnic wagons carried with it the twenty persons which it contained and all sustained more or less injuries. The passengers in the wagon were participants in an annual outing of Pride of the West Council, Daughters of Liberty, and all lived in Allegheny, from which place the picnic started earlier in the evening.

How to Avoid Appendicitis.

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. J. W. McCollum & Co.

Crushed Under Street Car.

Birmingham, Ala., Aug. 9.—Cecil M. Truss, city attorney of East Lake, Ala., a member of the law firm of Truss & Howlett, of Birmingham, was run down by a suburban electric car at East Lake Wednesday night and killed. The body was badly mangled.

In Self Defense.

Major Hamm, editor and manager of The Constitutionalist, Eminence, Ky., when he was fiercely attacked four years ago by piles, bought a box of Bucklen's Arnica Salve, of which he says: "It cured me in ten days and no trouble since." Quickest healer of burns, sores, cuts and wounds. 25c at all drug stores.

A VETERAN OF THE SPANISH WAR

Expresses His Great Faith In Pe-ru-na.

Pe-ru-na Is a Tonic Especially Adapted to the Prevention and Relief of All Catarrhal Ailments Due to the Vicissitudes of Climate and Exposure Experienced by the Soldier.

An Old Soldier's Praise.

Mr. F. R. Cox, Center Oak, Pa., writes: "I was taken with hemorrhages of the stomach and had from one to three a year.

"The doctors said my stomach could not be cured, and it was only a question of how soon one of these spells would kill me, and I was given up several times, as they had no hopes for me.

"I finally wrote to you, and you said if it was not a cancer or a tumor, Peruna would cure me.

"I commenced taking Peruna right away, and have never had one of those spells since.

"I am an old soldier, one of Phil Sheridan's Rough Riders, and pretty nearly played out now, but I have a pretty good stomach again."

Assistant War Correspondent Recommends Pe-ru-na.

Mr. H. B. Manley, Assistant War Correspondent during the war in China, care "Black and White," 688 Craig St., Montreal, Canada, writes:

"When a man travels in extremely hot or cold climates, he realizes how valuable a friend he has if he carries a bottle of Peruna.

"I know of no article in my traveling outfit which I have learned to praise higher.

"If you are suffering with the extreme heat, Peruna restores you, or if you are afflicted with a cold, la grippe or bronchitis, Peruna restores you in a short time.

"Or if you suffer with sleeplessness or if your appetite is poor, again Peruna acts as a good, true friend and is the tonic needed.

"I have tried it for months and am only too glad to acknowledge it as a true, loyal standby in times of trouble. I do not hesitate to recommend it to all."

I. T. Markland, a well-known businessman of Cincinnati, O., address R. R. No. 1, Mt. Washington, Ohio, writes:

Able to Work At the Age of Seventy-Three Years.

"I find that in my case Peruna is a flesh builder. I am now at work every day, and have gained ten pounds. I took your Peruna according to directions and the result was more than I expected. I took no other medicine but Peruna, and it accomplished all. You told me in your first letter that you thought Peruna would cure me and it has. I am seventy-three years old and can attend to my business as usual."

COL. ARTHUR L. HAMILTON.

Gallant Porto Rican Soldier Gives Praise to Pe-ru-na.

Col. Arthur L. Hamilton, of the Seventh Ohio Volunteers, writes from 259 Goodale St., Columbus, O., as follows:

"Besides having the merits of Peruna fully demonstrated in my family, I have a number of friends who have taken it for catarrh and stomach trouble and all unite in praising it. As a remedy for catarrh, I can fully recommend it."

In a later letter to Dr. Hartman, Col. Hamilton writes:

"My command used your Peruna during our service in the Spanish-American War and I will say this, that if the War Department records are consulted, it will be found that the casualities in my regiment were less than in any other regiment of the Army Corps while at Camps Alger, Meade and Bushnell. The total deaths in my regiment, during the seven months' service, were seven out of a total number of 1400. I, of course, cannot help but think that Peruna certainly was a great benefit to my command."

In a recent letter, Col. Hamilton says:

"I have used Peruna myself and in my family for the last seven years. I have already written you about the good results I experienced with your remedy during the Spanish-American War."

In old age the mucous membranes become thickened and partly lose their function.

This leads to partial loss of hearing, smell and taste, as well as digestive disturbances.

Peruna corrects all this by its efficient operation on all the mucous membranes of the body.

One bottle will convince anyone. Once used and Peruna becomes a life-long stand-by with old and young.

For free medical advice, address Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, O. All correspondence held strictly confidential.

Mr. Fred Derseweh, Ridgetop, Tenn., writes:

"We have been using Peruna for five years. I believe that it is the best medicine that I know of.

"I and my wife and our thirteen children do not need any doctor, since we use Peruna."

Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind.

Peruna has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of the catarrh.

Sketch Artists Ruled Out.

London, Aug. 10.—The president of the divorce court has announced that the court had decided that hereafter newspaper artists shall not be allowed to make sketches in court, since the practice was embarrassing and prejudiced witnesses and because it was not in the public interest to pictorially draw attention to divorce cases.

A Mystery Solved.

"How to keep off periodic attacks of biliousness and habitual constipation was a mystery that Dr. King's New Life Pills solved for me," writes John N. Pleasant of Magnolia, Ind. The only pills that are guaranteed to give perfect satisfaction to everybody or money refunded. Only 25c at all drug stores.

CHEAP GAS FOR KANSAS CITY.

Long Fight for Cheap Natural Gas Won by City.

Kansas City, Aug. 10.—Kansas City won its long fight for cheap gas when Mayor Beardsley Thursday promised to sign the so-called Fleming-Wilson natural gas ordinance, granting a franchise to a syndicate of Chicago capitalists and passed by the city council Wednesday night.

The franchise is to run for thirty years and it provides that as long as the supply of natural gas is reasonably accessible, it is to be furnished at 25 cents per 1,000 cubic feet for domestic consumption and at 10 cents for manufacturing purposes. If the natural gas supply fails, the artificial gas is to be furnished at 75 cents per 1,000 cubic feet. The city may purchase the gas works at any time, providing the grantees receive their profits for ten years.

The Kansas City, M., Gas company now holds a franchise to furnish gas at a dollar and ten cents a thousand feet. The new ordinance will be signed as soon as it reaches the mayor, which probably will be Friday.

Galveston's Sea Wall

Makes life now as safe in that city as on the higher uplands. E. W. Goodloe, who resides on Dutton St., in Waco, Tex., needs no sea wall for safety. He writes: "I have used Dr. King's New Discovery for Consumption the past five years and it keeps me well and safe. Before that time I had a cough which for years had been growing worse. Now it's gone" Cures chronic coughs, la grippe, croup, whooping cough and prevents pneumonia. Pleasant to take. Every bottle guaranteed at all drug stores. Price 50c and $1 00. Trial bottle free.

Ground Broken for Hotel.

Chattanooga, Tenn., Aug. 10.—Ground was broken Thursday and actual work started on the new $600,000 steel-constructed hotel on the corner of Eleventh and Market streets, to be built by the Stone Fort Land company. A building permit was taken out for $500,000. The work was started by a dynamite blast which followed a public gathering and demonstration.

Dismissed from Office.

Cincinnati, Aug. 10.—James Allison, superintendent of the house of refuge and Peter Costello, his assistant, were dismissed from office, following the report of a committee appointed to investigate charges of cruelty to inmates. The officers were given an opportunity to resign, but refused to do so claiming the committee's report exonerated them.

Sails for Final Test.

New York, Aug. 10—The battleship Rhode Island, one of the newest and biggest of the navy, sailed from this port early Thursday for a final test before her acceptance by the government.

Beauvoir Club is Fined $50.

Montgomery, Ala., Aug. 10.—The Beauvoir, the leading social club of the south, was Wednesday fined $50 in the state court for violating the law against selling whisky on Sunday.

Why suffer with pain when BALLARD'S SNOW LINIMENT WILL CURE

RHEUMATISM, CUTS, OLD SORES, SPRAINS, WOUNDS, STIFF JOINTS, NEURALGIA, SCALDS, ETC.,

G. A. Friedel, Dallas, Tex. writes: "I use Ballard's Snow Liniment for my family. It is the best Liniment made. It relieves burns and scalds."

25c, 50c and $1.00

Ballard Snow Liniment Co. ST. LOUIS, MO.

Sold and Recommended by W. M. JOHNSON, Gainesville.

Whose Say-so is Best?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone as to their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from disinterested motives. Dr. Pierce's medicines, however, form a single and therefore striking exception to this rule. Their claims to the confidence of invalids does not rest solely upon their makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines.

Amongst these writers we find such medical lights as Prof. Finley Ellingwood, M. D., of Bennet Medical College, Chicago; Prof. Hale, of the same city; Prof. John M. Scudder, M. D., late of Cincinnati, Ohio; Prof. John King, M. D., late of Cincinnati, Ohio; Dr. Grover Coe, of New York; Dr. Bartholow, of Jefferson Medical College, of Pa., and scores of others equally eminent.

Dr. Pierce's Favorite Prescription cures the worst cases of female weakness, prolapsus, anteversion and retroversion and corrects irregularities, cures painful periods, dries up disagreeable and weakening drains, sometimes known as pelvic catarrh and a multitude of other diseases peculiar to women. Bear in mind, it is not a patent nor even a secret medicine, but the "Favorite Prescription" of a regularly educated physician, of large experience in the cure of woman's peculiar ailments, who frankly and confidingly takes his patients into his full confidence by telling them just what his "Prescription" is composed of. Of no other medicine put up for woman's special maladies and sold through druggists, can it be said that the maker is not afraid to deal thus frankly, openly and honorably, by letting every patient using the same know exactly what she is taking.

Sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is guarded as sacredly secret and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

How to preserve health and beauty is told in Dr. Pierce's Common Sense Medical Adviser. It is *free*. For a paper-covered copy send Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps to cover mailing *only*; in cloth binding 31 stamps.

Dr. Pierce's Pellets cure constipation.

HEALTH AND HABITS.

Tissue Income and Expenditure Must Be Made to Balance.

The day must come at some future period of sociological development when the instinct of self preservation will overrule the pernicious habits and customs of the present day fashions and necessity. Men will come to learn that tissue income and expenditure must be adjusted to a better balance if the human machine is to be kept in smoothly working order; that excess of either is a physiological sin which nature will surely avenge either on the individual or on his descendants; that sustained work of the best quality can only be performed when effort is kept well within the margin of accomplishment, that luxurious idleness and artificial excitement, when carried beyond the limits of a healthy counterpoise to the daily routine of active duty, bring about their neurasthenic nemesis as surely as overstrenuous endeavor, and that the coming generation can be fitted to battle with the increasing complexities of life only if endowed with bodies that are structurally perfect and with nervous centers capable of producing throughout an average duration of life sufficient energy to enable the machine to perform satisfactorily the work whereto it has been set.

A more vigorous public sentiment, fostered by an example of greater self denial and more rigid adherence to simplicity of life on the part of those who set the pace and lead the fashions of the day, would do much to arrest the downhill rush of the multitude; pronounced social disapproval of the immoderate use of alcohol and tobacco and the stern forbidding of both under the age of puberty would shield the nervous centers from two of their most deadly enemies, and, though it might at first grate against popular feeling, the introduction by the legislature of an enactment whereby some form of compulsory military service was exacted from every healthy young man would materially contribute to the preservation of active minds in vigorous bodies to those who are destined to make or mar the future history of their fatherland.—Guthrie Rankin, M. D., in Detroit News-Tribune.

Don't Be Blue

And lose all interest when help is within reach. Herbine will make that liver perform its duties properly. J. B. Vaughn, Elba, Ala., writes: "Being a constant sufferer from constipation and a disordered liver, I have found Herbine to be the best medicine, for those troubles, on the market. I have used it constantly. I believe it to be the best medicine of its kind, and I wish all sufferers from these troubles to know the good Herbine has done me." Sold by W. M. Johnson.

For rates or any information see ticket agent or communicate with Frank C. Boylston, District Passenger Agent, Jacksonville, Fla.

CHILDREN'S GAMES.

The game of hare and hounds originated in England about 1640.

Leapfrog is mentioned in the works of both Shakespeare and Johnson.

The game of hide and seek came from Europe about the beginning of the seventeenth century.

Blind man's buff found its origin with the Greeks, among whom it was often indulged in by adults.

Skipping rope is a childish pastime of ancient origin. In place of rope a vine stripped of leaves was originally used.

The spinning of tops came from the Greeks. Records show that this kind of fun was in vogue at the time of Virgil.

Kite flying is about two centuries old in Europe. Probably it originated in China, where the practice of flying kites is very ancient.

The game of seeing who can hop the longest on one foot came from the ancient Greeks, among whom it was practiced by the youths for wagers.

Cathedral's Title Chain.

There is one thing in particular in St. Patrick's cathedral in New York that you cannot see in any other building in the city, if indeed in the country. It is a framed sheet of paper hanging on the wall of the southern entrance that contains the complete chain of title of the property on which the edifice stands from the time it was first sold until the church authorities bought it. The only reason for its being there so far as any one knows is to put a stop to the old story that the property was originally purchased by the church for a dollar. To settle this point the chain of title shows how much was paid for it in the beginning, and from that point on each change of ownership is accompanied by the price it was sold for.

The End of the World

Of troubles that robbed E. H. Wolfe of Bear Grove, Ia., of all usefulness, came when he began taking Electric Bitters. He writes: "Two years ago kidney trouble caused me great suffering, which I would never have survived had I not taken Electric Bitters. They also cured me of general debility." Sure cure for all stomach, liver and kidney complaints, blood diseases, headache, dizziness and weakness or bodily decline. Price 50c. Guaranteed at all drug stores.

PUZZLES FOR SCIENTISTS.

Many Problems In Nature Which Man Cannot Solve.

A scientist who has been traveling in Africa in search of an answer to some questions concerning rainfall gives as his opinion that the expression of imperturbable calm on the face of the sphinx arises from the fact that she has never tried to find the answers to the riddles of nature, which have sent many men to their graves. What is gravity? is one of them. Hundreds of men have gone insane trying to answer it. Some, in fact, have gone so far as to try to disprove the theory entirely. An English naval captain wrote a book on this subject and sent it to all the learned societies in Europe.

Why cannot force be created by human power? Trying to accomplish this has hastened the end of many a worthy man. Perpetual motion will be an accomplished fact if we can discover how force is made. Keely, with his motor, who claimed to have discovered perpetual motion, was a swindler whose death revealed his ingenious counterfeit of perpetual motion. If this discovery could be made it would revolutionize the world.

What source of heat supply has the planet Mars? This is another riddle. Our earth gets much more heat from the sun than does Mars, yet that planet has a beautifully mild climate. Astronomers have watched the ice cap thawing on Mars, and they have proved that water flows and clouds rise. This shows that Mars has heat. But if it is not supplied by the sun from what source does it come?

Where the tide is born is another of nature's secrets. On the island of Papete, in the southern Pacific, there is every day at 12 midday and 2 in the afternoon high tide. Why no one is able to explain. A scientist has been able to turn gold into silver, but no one so far has been able to make a magnet which will attract gold. Could this be accomplished its enormous value could scarcely be realized, for it would make it possible to work rock from which no known process has been able to extract gold in paying quantities.

Why it rains is a question to which no definite answer has been given. Blue sky does not necessarily mean fine weather, for there may be just as much rain overhead when the sky is clear as when the clouds hide the sun. When rain falls from a cloudless sky it is generally believed that the moisture has been brought by the wind at a great elevation. In the south Atlantic it has been known to rain for more than an hour while the sky was entirely free from clouds. In the island of Mauritius it is not at all uncommon for rain to come from a cloudless heaven. Slight showers fall during the evening when the stars are shining brightly. It is thought by some that these showers are the result of particles of ice formed in the higher region of the atmosphere melting and falling. Others attribute it to currents of warm and cold air traveling in opposite directions, with the result that the latter condenses some of the moisture in the former and causes it to fall in the form of rain.

The First Newspapers.

To France belongs the credit of publishing the first regular newspaper. This paper, which was called the Gazette of France, was founded in 1632 in the reign of Louis XIII. by Theophrastus Renaudot.

In England the first newspaper was published in 1662 by Nathaniel Butter. The name of the sheet is uncertain. In 1656 the first Dutch paper was printed. It contained two small folio pages of news. In the Imperial library at St. Petersburg are two copies of the first Russian newspaper, which have the date 1703. There are also some proofs of the same paper on which are corrections written in the hand of Peter the Great. This monarch took great interest in the paper and personally superintended its editorial composition.

The first paper established in North America was the Boston News-Letter, which first was issued April 24, 1704. This paper was printed on a sheet twelve inches by eight and contained two columns of news. It survived until 1776. It advocated the cause of the British government at the outbreak of the Revolution.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are sound and well. A. R. Bass of Logantown, Ind., had to get up ten or twelve times in the night, and had severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

Seaboard Parlor Cars.

The Seaboard Air Line operates buffet parlor cars between Waldo and Ocala on train leaving Waldo that connects with the morning train from Gainesville.

All careful women use

HERBINE

What Has Happened and What is Going to Happen Told in Short Paragraphs So That "He Who Runs May Read" it in The Sun.

House to let. Mrs. E. A. Clapp.

Old papers for sale at this office.

Fewer Gallons; Wears Longer; Devoe.

Suits cleaned and pressed, 25c, at the Gainesville Steam Laundry.

For the best printed stationery at lowest prices call at The Sun office.

Nice, fat mackerel just arrived. Try one for breakfast. Saunders & Earle.

Suits cleaned, pressed and returned in one hour at the Gainesville Steam Laundry.

O. W. Maines, a progressive farmer of Monteocha, was in the city trading yesterday.

For Sale—$30 bicycle, used one week only, for $22. D. M. Fay, 408 E. Lassiter street.

Mr. and Mrs. H. M. Moran of Campville were among the visitors to this city yesterday.

Be sure to get Blue Ribbon Lemon and Vanilla Extract—the best that money can buy.

Dr. H. Gartrall of Fairfield was among those who favored Gainesville with a visit yesterday.

If your wife has left you for the summer the Pearce House will take care of you. Meals 25c.

Benjamin Frie, a clever young man of Waldo, was among those who came to Gainesville on business yesterday.

Captain A. Paul, special agent of the United States land office, has returned from an official visit to points in West Florida.

For Rent—Eight-room house, Alachua avenue, East Gainesville, two blocks from school house. August Wenske.

J. F. Futch of Haynesworth was in the city on business yesterday. He called at The Sun office and renewed his subscription.

Wanted—Two young ladies to study nursing at the Odd Fellows' Sanitarium. Address Mrs. Alice E. Broughton, superintendent.

T. C. Scott and Dr. A. R. Williams of Alachua were among the visitors to this city yesterday. The former made The Sun an agreeable call.

The training school for nurses of the Medical Society will be held in the office of Dr. Dell at 8 o'clock this evening. Full attendance desired.

T. J. McRae left yesterday on a visit to Hawthorn. Mr. McRae is an old resident of Hawthorn, and has many friends there who are always glad to see him.

C. A. Nichols, Jr., of Lake Butler, spent a portion of yesterday in this city on business. During his stay here he was a guest of Mr. and Mrs. W. E. Dow, his friends.

Conductor Chas. R. Carter of the Atlantic Coast Line, who is running between Jacksonville and St. Petersburg, stopped over a day or two with relatives here this week.

Raymond Mathews of Flemington, a baggagemaster on the Atlantic Coast Line between Palatka and Rochelle, was in the city yesterday. He was en route from home, where he has been on a visit to his parents.

J. R. Wells of Jacksonville, State manager of the Singer sewing machine, has returned from a business trip to this city. Mr. Wells made a thorough investigation of the business methods of the office, and complimented L. W. Jackson for the clever manner in which the affairs had been carried on. Mr. Jackson is well known in Alachua and other counties adjoining, and is bound to make a record for anything he represents here.

Claude Birchman, a valued employe of the traffic department of the Southern Bell Telephone Company, is in the city. Mr. Birchman came for the purpose of extending the line of the Southern Bell from Gainesville to various points in the county, for the convenience of the farmers and out-of-town residents who desire long distance connections. The Southern Bell will install a full and complete system, which they claim will be in full working order in a few months, or as soon as the lines can be constructed.

SOLD OUT

NOTICE.

Gainesville, Fla., July 10

I have this day sold my Plumbing business in this city to The S. J. Thomas Company. I desire to thank my friends for their liberal patronage in the past, and bespeak for my successors your support.

Yours truly,
F. A. ROUX.

We announce that we have bought out the **PLUMBING** business of **F. A. ROUX.**

We have the finest line of **PLUMBING GOODS** ever shown here, and have en route a

Carload of Tubs, Lavatories, Closets and all Accessories.

We have FIVE MEN NOW and we can give your work Prompt Attention.

REMEMBER that all Plumbing work will have to undergo the strictest inspection in the future, and our Plumbing Department will be handled by a MASTER PLUMBER, whose certificate we have on file in our office.

GET OUR ESTIMATE — SAVE MONEY.

THE S. J. THOMAS CO.

Thomas Blair of Atlanta, a prominent attache of the Southern Bell Telephone Company who has been making his headquarters in this city, returned yesterday from White Springs, where he has been on important official business.

J. W. Thomas of Dunnellon passed through the city yesterday. He was en route to Jacksonville as a representative of the Dunnellon municipality, having been sent to select the machinery for an electric plant for the town. Dunnellon is a mining town, with dark nights and sandy streets. Put the two together, and it will be readily seen that lights are a necessity. Hard roads would not be bad.

At 3 p. m. on Aug. 11th we will offer to the highest bidder at public sale one-horse wagons, buggies, carriages, harness, and a lot of horses and mules. Not worn-out stuff, but good stock, and nearly new vehicles. After this sale we will run an exclusive sale stable, and about Aug. 20th will have on exhibition a car of fresh stock, also new buggies and harness. Terms cash, or approved security. Hunter & Edwards, Gainesville, Fla. P. M. Oliver, Auctioneer.

READ THIS.

STEVENSON, Ala., June 6, 1901.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very severe nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctor said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am Yours truly,

W. C. DANIEL.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by J. W. McCollum & Co.

BACK FROM DENVER.

L. C. Lynch Has Many Good Things to Say of Grand Lodge Meeting.

Louis C. Lynch, past exalted ruler of Gainesville Lodge No. 990, B. P. O. E., has returned from Denver, where he attended the meeting of the Grand Lodge of the order.

Mr. Lynch did not arrive until the afternoon, hence was too tired to talk, so he told a representative of The Sun. It is supposed that he was correct, since it was a long and tedious journey direct from Denver to Gainesville, and Mr. Lynch felt more like resting than anything else.

Mr. Lynch, who was accompanied by G. Henry Davis and his mother, visited many places of interest in Colorado. Mr. Lynch was thoughtful enough to send the city editor of The Sun, who is an Elk and a warm personal friend, a magnificent Elk hide banner with appropriate inscription, as a souvenir of the occasion.

Mr. Lynch has promised to say a few things through The Sun of his trip to Colorado in a few days.

T. J. Cone, the lumber manufacturer of Raleigh, was a visitor to this city Thursday, returning Friday morning. He was accompanied by J. M. Davis, who has been for some time connected with him in the capacity of superintendent of the Cone plant. Mr. Davis expects to leave in a day or two for Savannah, where he will probably accept another similar position for a large concern. He has been for the past four years with Mr. Cone, who dislikes very much to give him up, but they will separate upon the friendliest of terms, and Mr. Davis is assured of a "job" and the most hearty welcome when he decides to come back. Messrs. Cone and Davis are Elks, and members of Gainesville lodge.

Rollie Beck, a clever young man of Central, Levy county, passed through the city yesterday en route to High Springs. Mr. Beck is quite popular among the young ladies, and it is said he had many friends among the sex in his section. He is a baggagemaster on the Atlantic Coast Line, and whenever he writes his parents that he is coming home the young ladies in the neighborhood "line up" to do him honor. He likes them all, but friends declare he has his preference.

NEW YORK RACKET

CHEAPEST STORE ON EARTH

A DELIGHTFUL AFFAIR.

Young Friends of Prospective Bride Give Her a Kitchen Shower.

There was a jolly crowd at the elegant home of Col. and Mrs. I. E. Webster Thursday evening, the occasion being a "kitchen shower" complimentary to their friend, Miss Katie Bruce, who is to be married Sunday evening at North Gainesville Hall to John W. Crouch.

Both contracting parties are well and favorably known in North Gainesville, as well as throughout other sections of the city, and as a token of regard, it was decided to thrust this pleasure upon them.

There were many presents, among which were some very handsome gifts from admiring friends. It is safe to say that the young people will have ample to begin housekeeping upon in the culinary department.

Miss Bruce and Mr. Crouch expect to be married Sunday evening. The ceremony will be performed by Rev. I. E. Webster, and it is needless to add that a good crowd will fill the hall upon that occasion.

The 'Possum Escaped.

"Me fata da 'pos, me hav a de good din," was the expression of Nicholas, the Greek who captured an opossum in his candy store while endeavoring to gnaw into a candy box a few days ago, notice of which appeared in The Sun.

Nicholas captured the 'possum, which was about half grown, and fed it highly on garlic and American canned goods which have just passed through a national government raking-over; but the 'possum, evidently dissatisfied with either the garlic, the canned goods or the report of the committee upon the latter, did not like the situation, and escaped.

As a result, Nicholas will "hav a not de fata 'pos" upon which he expected to feast in short time.

Richard Welch has accepted a position as tonsorial artist at the shop of Chas. Dorman, Central City Tonsorial Parlors.
